

EconS 582, Fall 2017
Homework #2: Due on Wednesday, September 20th

anaespinola@wsu.edu

Office hours: Thursdays 9:00am-10:00am, or by appointment

Consider a topic in environmental economics that you would like to study and potentially develop a research paper. Identify a set of articles [minimum 6, maximum 12 papers] related to that specific topic. Note that papers must be published in some of the journals we identified during class. Discuss each of them: (1) identifying the research question, (2) explaining model, and (3) discussing the main result. Properly write references at the end of your homework assignment, using the Chicago Manual of Style (<http://www.lib.uga.edu/ref/chicago2009.pdf>). The maximum number of pages for this assignment is eight (not including references).
